

DIY Wooden Turkey

By

TeeDiddlyDee.com

Center

Circle

(8 1/2 inches diameter)

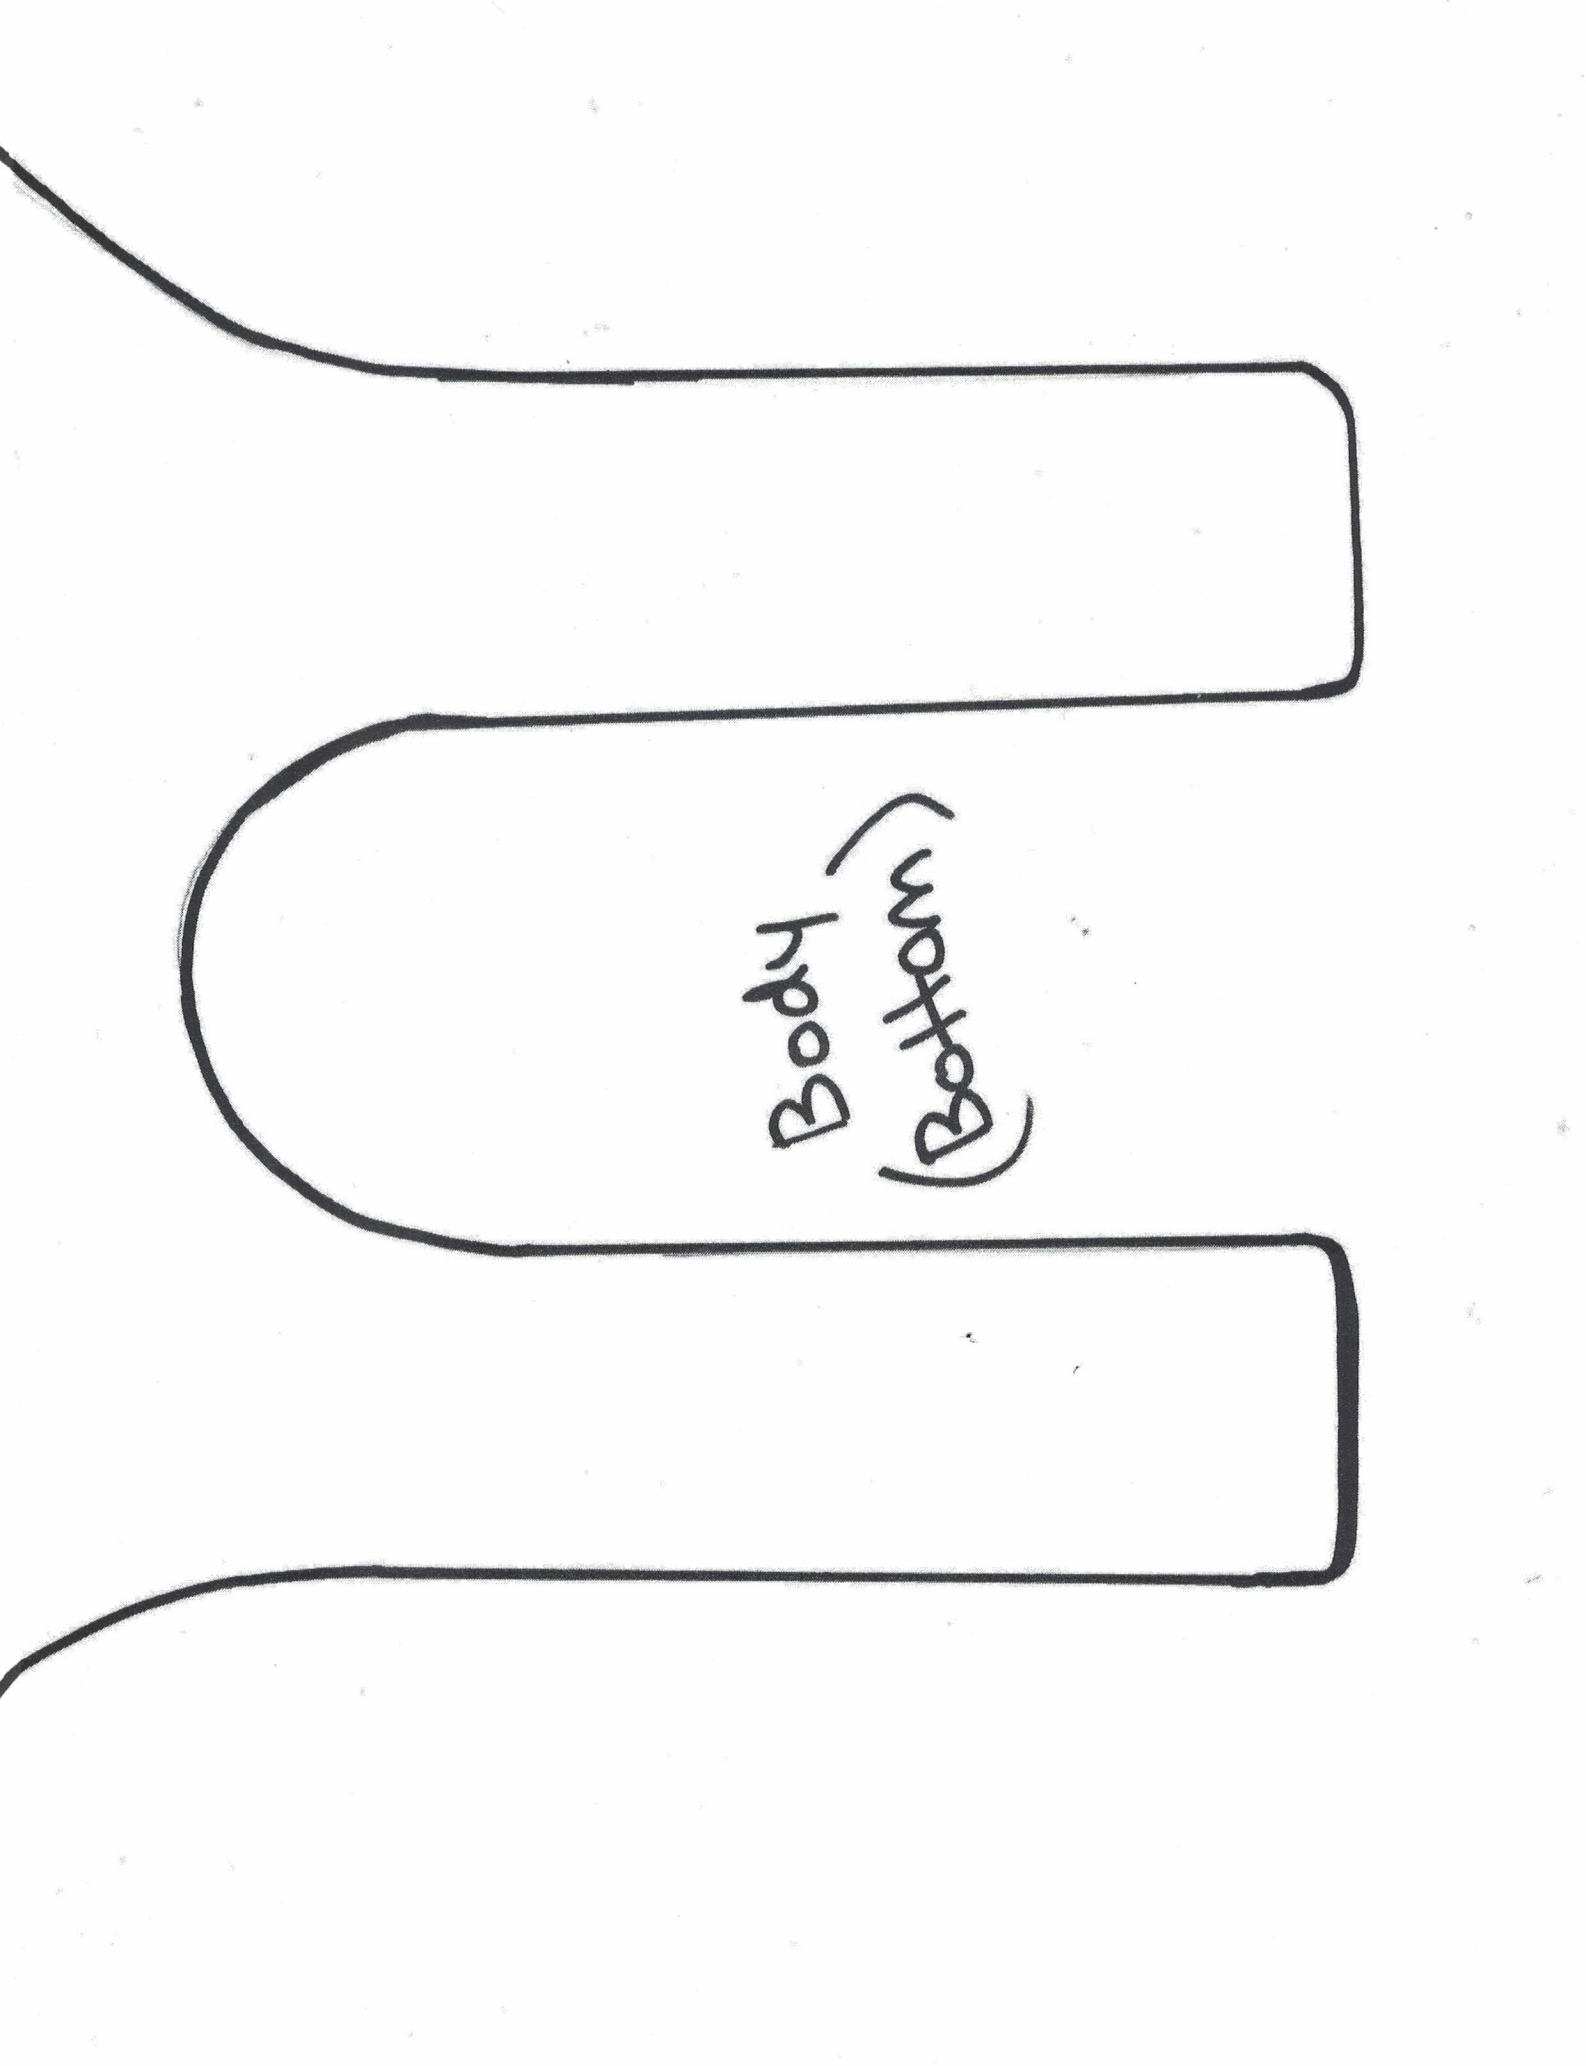

Make one from
wood

Body
(Left side)

Cut out
one body
from wood

Body
(Right Side)

Tape Pattern
together. Body should
measure $13 \frac{3}{4}$ inches
tall after being
taped together.

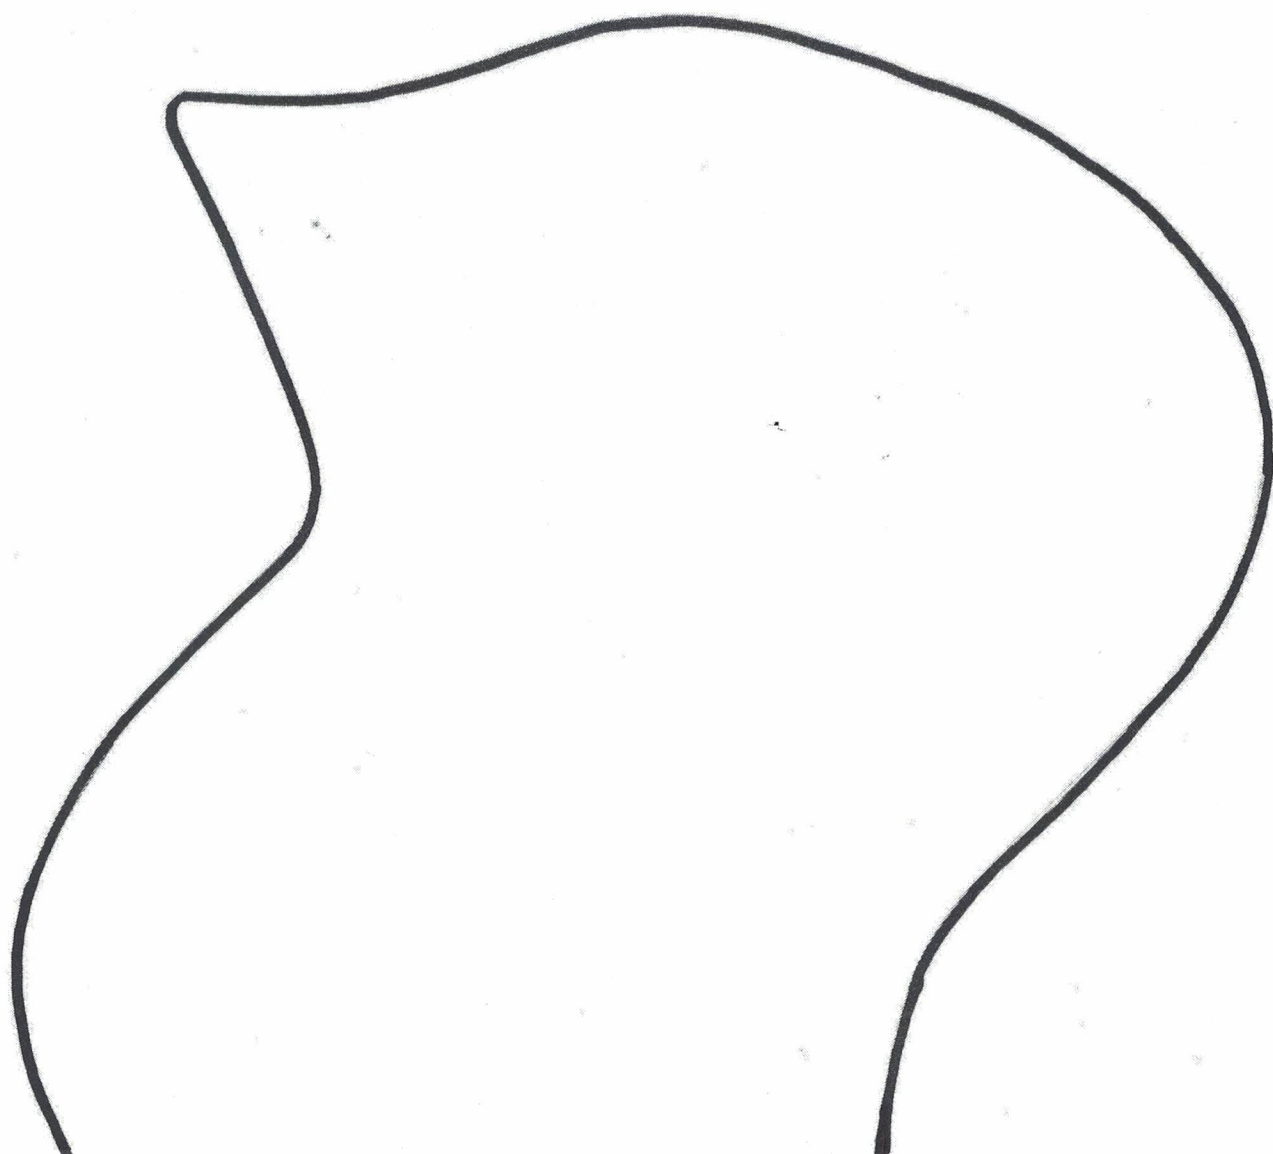

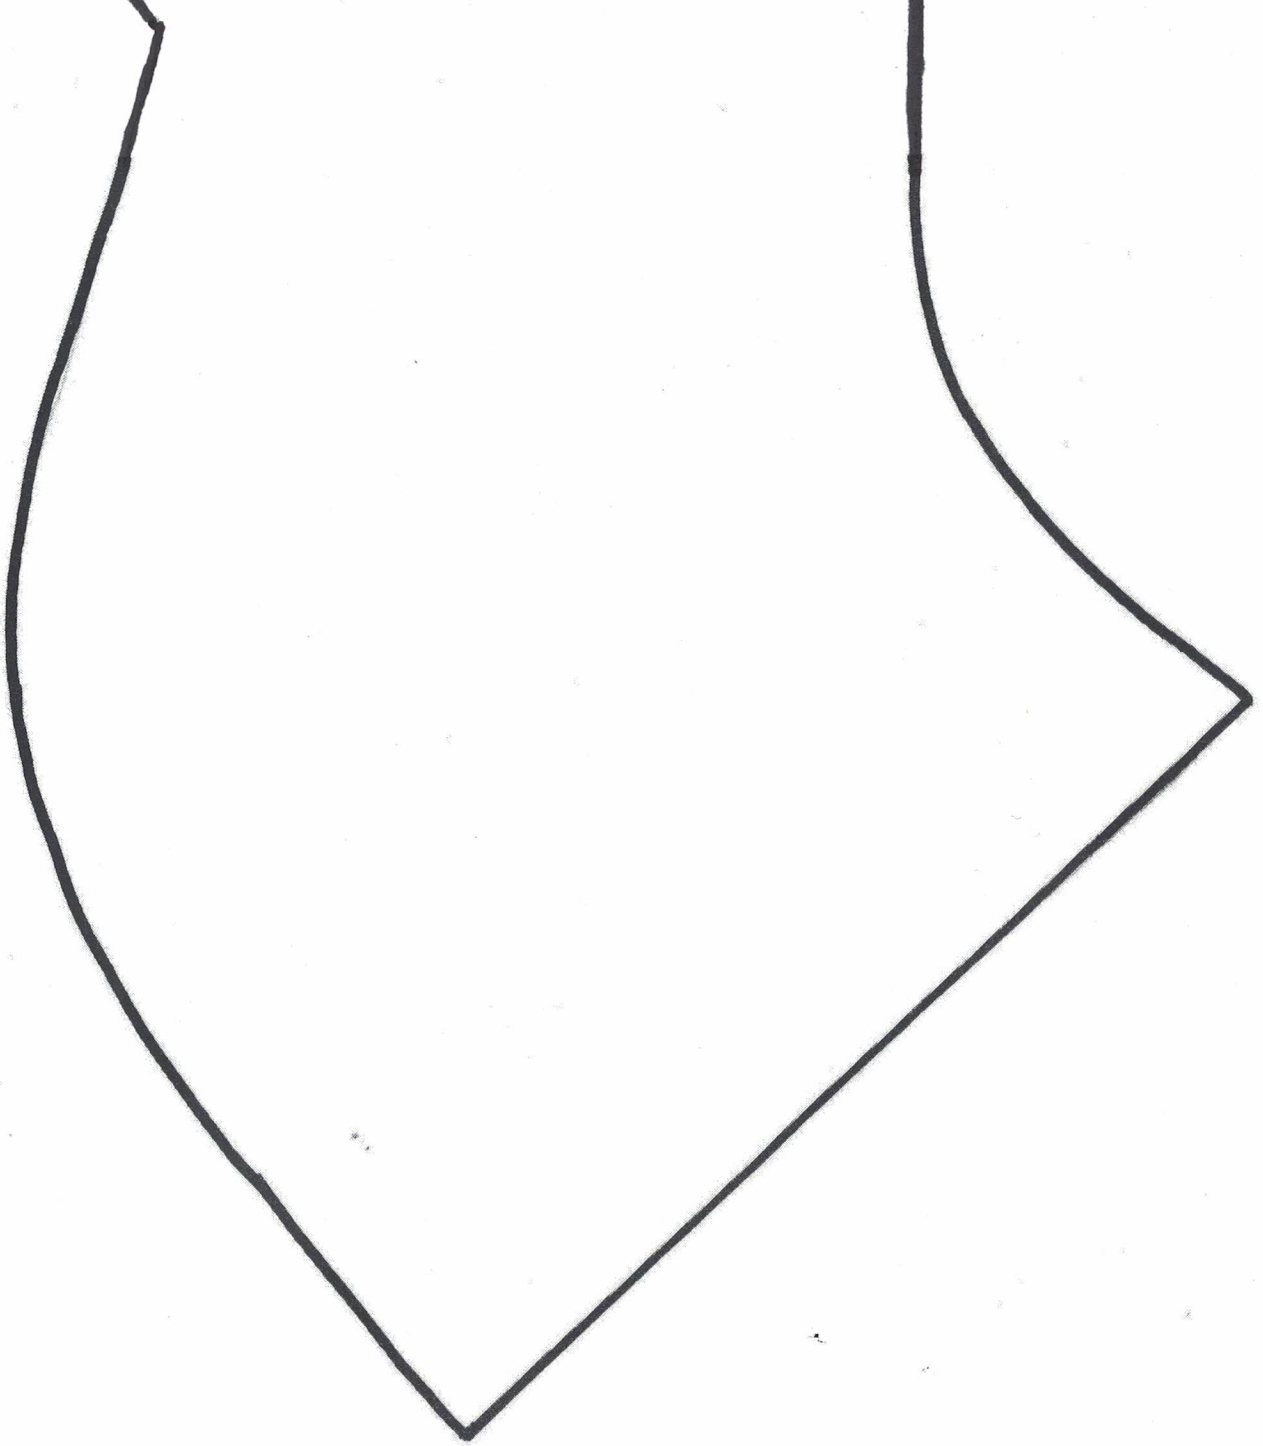

A hand-drawn diagram of a U-shaped container, possibly a bathtub or a large bowl, oriented vertically. The container has a central curved section and two long, straight vertical sections on either side. The entire shape is outlined with a thick black line. In the center of the curved section, the words "Body" and "(Bottom)" are written in a handwritten, cursive style, stacked vertically.

Body
(Bottom)

Head
(Top)

(Tape head
pattern together)

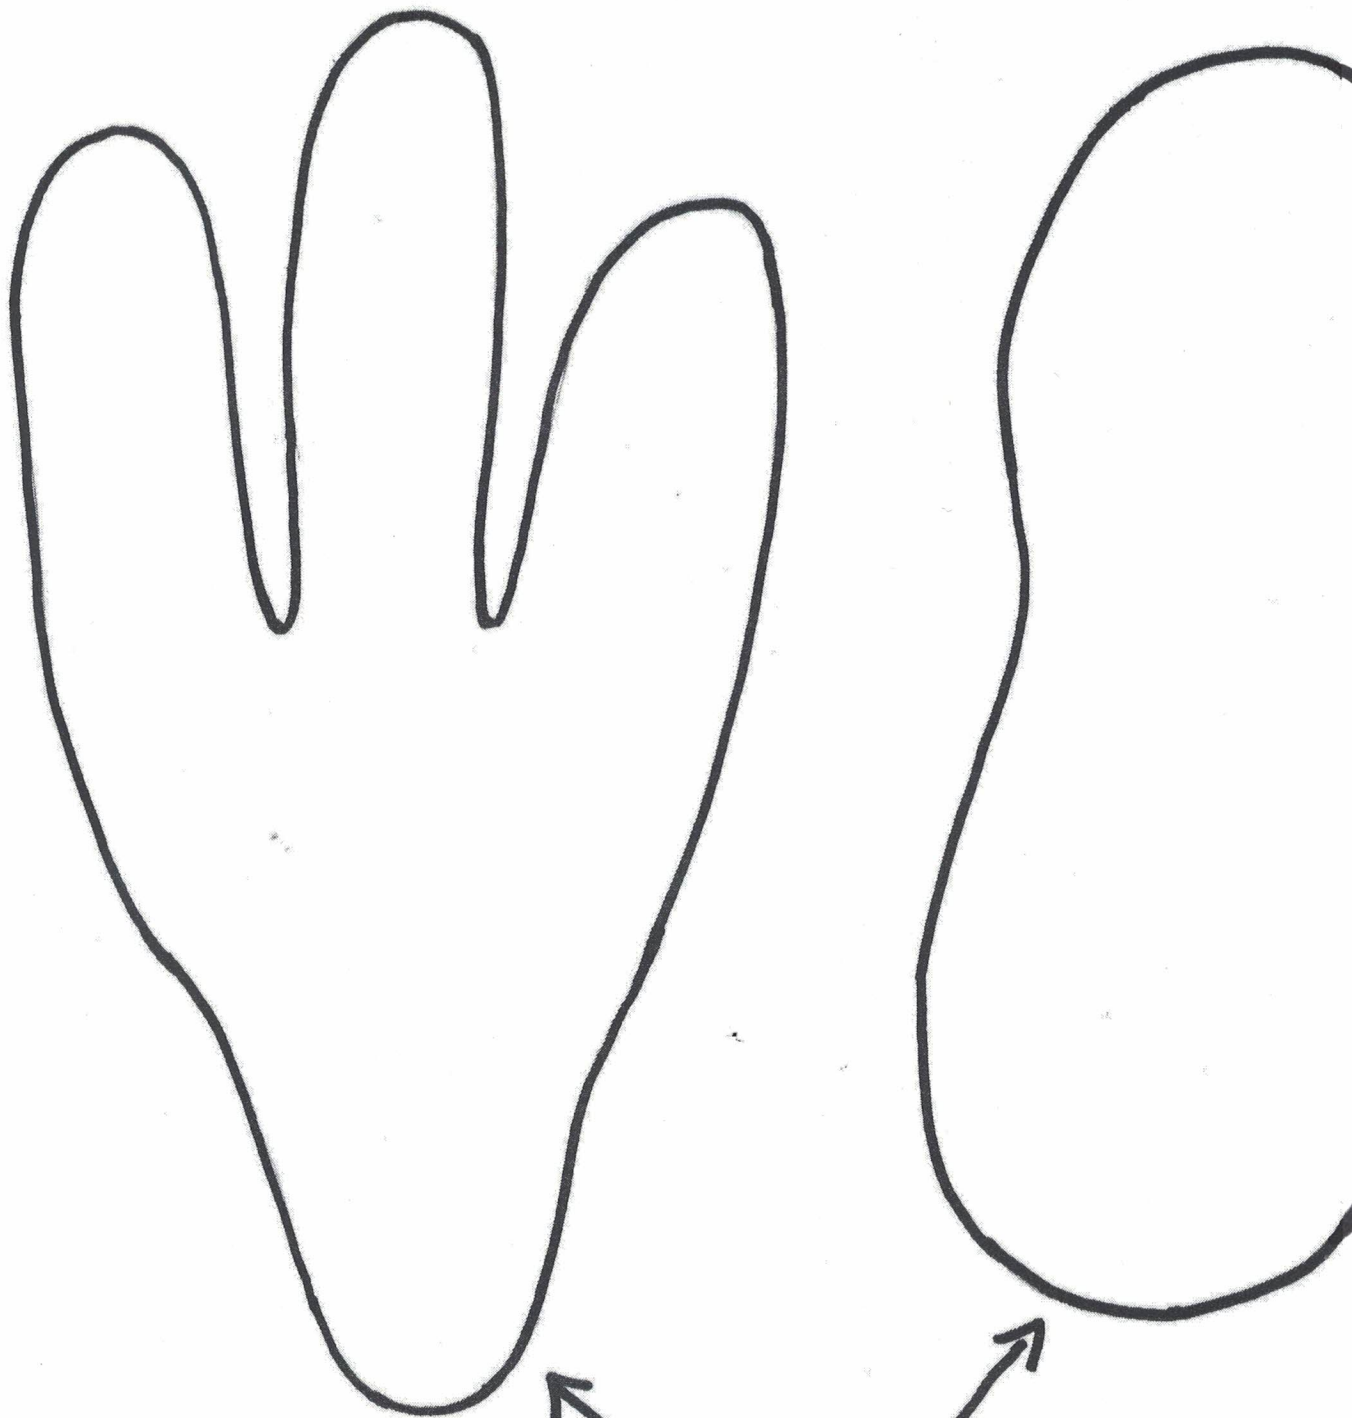

Head
(Bottom)

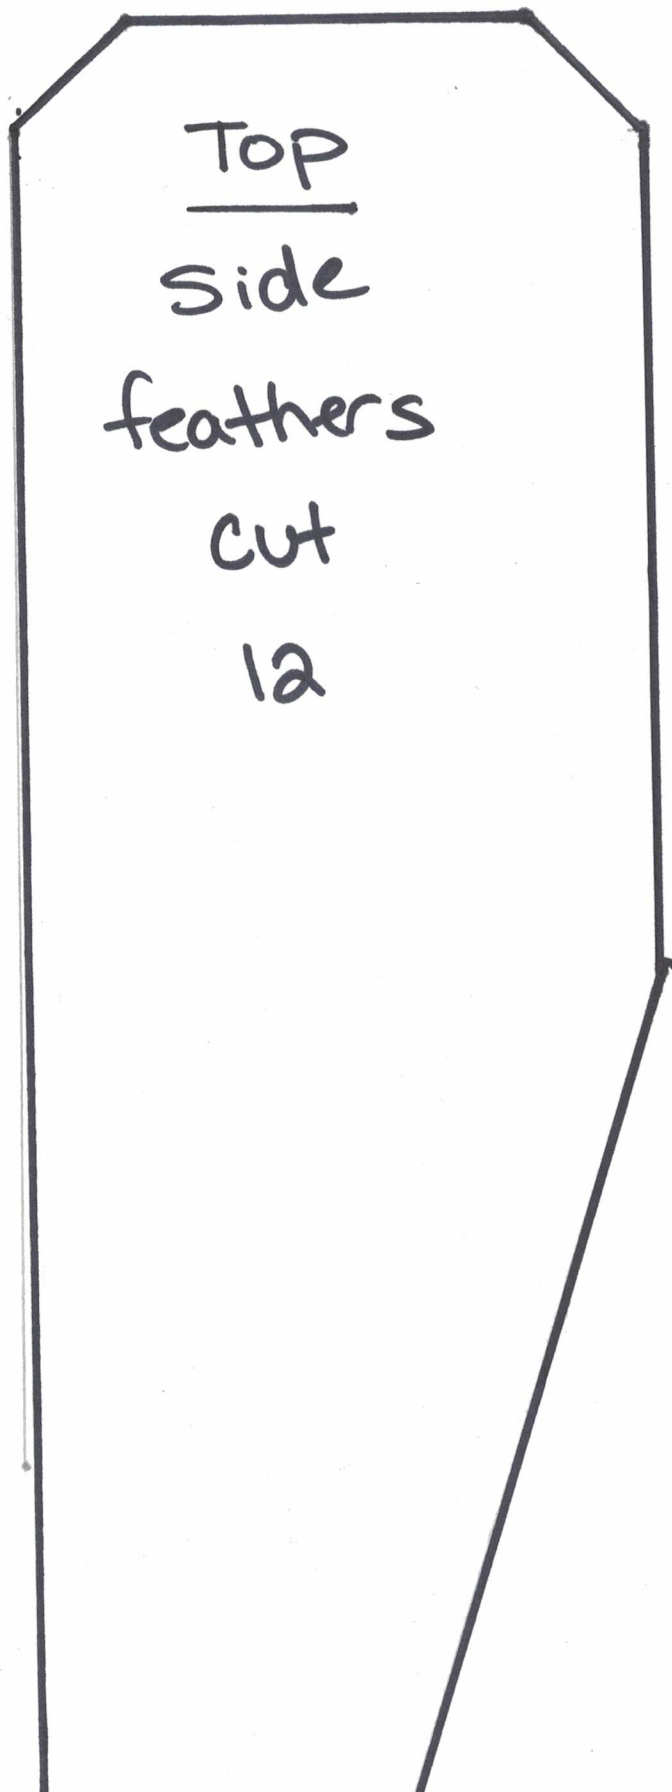

Cut 1 whole head out
from wood

Feet

Wobbles

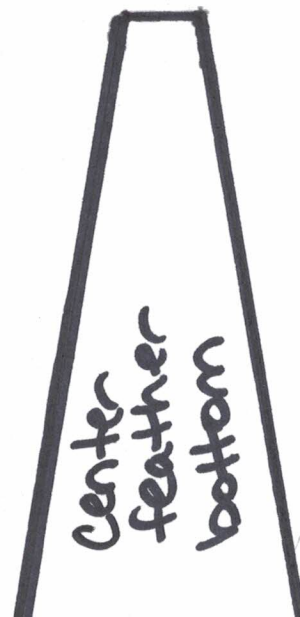

Make 2
of each
from wood

TOP
Side
feathers
cut
12

Both feathers
should be
 $13 \frac{1}{2}$ inches in
length

(Tape feather
pattern together)
